- Excellent knowledge of delivering D365 Finance Solutions
- Currently are based in U.A.E.
- Available to start working immediately

We look forward to hearing from high-energy, potential collaborators!

accendo groupe is a trusted partner for HR, Recruitment, HR systems, and Transition/Interim management requirements, empowering and providing great opportunities for young talent emerging from all over the world, igniting their potential.

As part of advisory services to entrepreneurs, startups and multinationals we offer a full line of retained Human Resources and Recruitment Solutions. This role is for one of our confidential clients, a young company specializing in ERP Implementation and Digital Transformation based in Dubai. They are looking to build out their solutions team with high-energy, technically astute consultants to support their expanding client base (United Kingdom at present). Huge growth potential for the successful candidate. The profile of this person is someone who LOVES the challenge of day-to-day working with multiple clients with tight deadlines. The best fit candidate is someone who is highly proactive & collaborative, tenaciously taking on deadlines and keeping the managing director and clients informed.

Responsibilities

- Working with client stakeholders to discover user needs, goals, and objectives of an organization and deliver the right processes and solutions for them.
- Collaborating with an implementation team that delivers some of the biggest and most exciting IT programs globally, all built on the **Microsoft D365 platform**.
- Flexibility in a hybrid role between an Implementation Consultant and a technical trainer to focus on a Dynamics 365 Finance project.
- Providing effective and timely delivery of D365 support through training, user support, and where appropriate, deployment, across the Group.
- Work with Solution Architects and Developers to outline high-level and low-
